

# gas

## Industry Training September 2009 – July 2010

Bedford College has over 10 years' experience of providing successful, quality training and assessment at affordable prices to the gas industry. We provide training for a wide range of employers – each year hundreds of individuals use our state-of-the-art facilities to gain recognised industry qualifications, with employers directly benefiting from the relevant industry skills they learn.

### Core Gas Domestic Safety (CCN1) Certificate

#### Summary:

The CCN1 provides individuals with the knowledge and skills relating to safety regulations, procedures and British standards which must be adhered to when working on gas installations. There are three course options: Category 1 is for individuals who already hold the CCN1 and require a refresher course, Category 2 is for individuals new to CCN1, and the two day course is for individuals only requiring the re-test.

#### Course content:

Flues, ventilation, combustion, and controls.

#### Entry requirements:

Category 1 is for individuals who already hold the CCN1 and require a refresher course, and Category 2 is for individuals new to CCN1. The two day course is for individuals only requiring the re-test.
